

WOW

Interview 101

---

# How to Introduce Yourself?

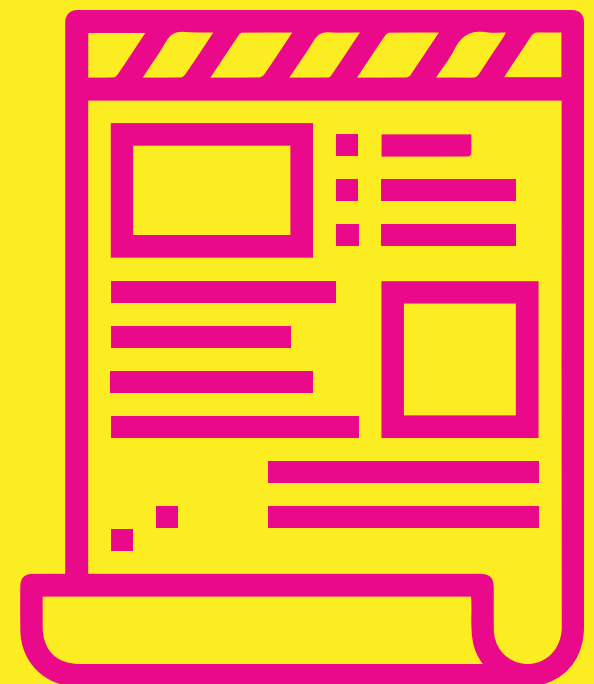

# Avoid Vagueness

Be specific when it comes to explaining your skills and unique selling points. Stay away from general descriptors.

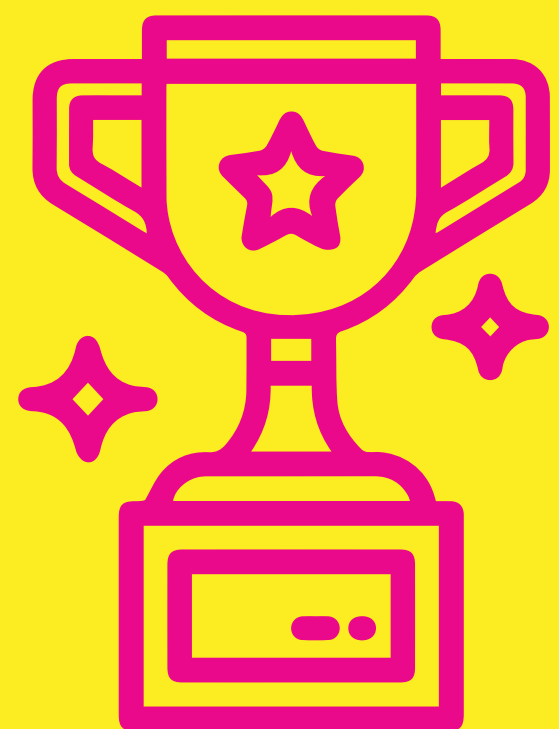

# Tell your story through examples

Always have examples ready to support your statements. A great storytelling technique would intrigue your employer more.

# Be proud of your achievements

You've come a long way to get to this point, so don't be shy when speaking about your accomplishments.

# Be Yourself!

As cliché as it may be, recruiters and employers will be able to tell if a candidate is being genuine. Be authentically you and you'll nail that interview!
